COMPANY ABOUT US

One Global Logistics (OGL) is an Australian-based Shipping Agent, Freight Forwarder, Licensed Customs Broker and Landside Logistics provider. Our Australian footprint includes office, warehouse and transport networks nationally.

Established in 2010, OGL's focus is on offering agile, flexible and cost competitive solutions, successfully working with manufacturers and constructors to manage their shipping, customs and landside logistics throughout Australia. Using the strengths of our people, processes and technology, we help our customers work smarter, not harder.

OGL will improve your supply chain requirements and is an extension of your business, from manufacturing through to site delivery.

At OGL, we use leading supply chain software and reporting options, which contribute to an improvement in visibility and transparency, materials management, communication and reporting for key stakeholders.

We pride ourselves on providing excellent customer service and strong interpersonal experience to our clients, through our hands-on approach and passion to exceed expectations in our delivery throughout the supply chain cycle.

OUR COMMITMENT TO CUSTOMERS

Global Suite of Services

Work with a provider that can reliably meet all of your logistics services & technology needs today & always.

Technology created by Supply Chain experts

Tailored, market-leading solutions that work for supply chain professionals & drive supply chain outcomes.

Informative advantage driving smarter solutions

Drive better outcomes for your business by taking advantage of our experience, date & scale.

People you can rely on

Our Global network of experts acts as an extension of your team.

MISSION STATEMENT

Our aim is to consistently deliver a seamless global logistics solution with Australian experience & reliability, whilst offering a personalised service. We connect businesses worldwide through innovative global freight forwarding & supply chain solutions, creating value through efficiency, sustainability, & trusted partnerships that help our clients succeed in international markets.

QUALITY ASSURANCE

One Global Logistics provides clients and suppliers with a ISO Quality Assurance Platform. We offer a unique system and high level of internal and external quality systems.

ISO 9001 (Quality Management)

Key Capabilities

- » Systematic approach to quality management through documented processes
- » Risk-based thinking methodology for preventative action
- » Focus on customer satisfaction and continuous improvement
- » Leadership engagement and organizational accountability

Features & Benefits

- » Enhanced operational efficiency and consistency
- » Reduced errors and waste in freight handling
- » Improved customer satisfaction through reliable service delivery
- » Competitive advantage in the global marketplace
- » Better documentation and traceability of shipments

ISO 45001 (Occupational Health & Safety)

Key Capabilities

- » Proactive hazard identification and risk assessment
- » Comprehensive safety protocols for warehouse and transport operations
- » Emergency preparedness and response systems
- » Worker consultation and participation frameworks

Features & Benefits

- » Reduced workplace accidents and associated costs
- » Improved safety culture throughout the organization
- » Legal compliance across multiple jurisdictions
- » Lower insurance premiums and workers' compensation claims
- » Enhanced company reputation as a responsible employer

Integration Benefits for all Stakeholders

- » Streamlined documentation systems covering both quality and safety
- » Harmonized audit processes reducing administrative burden
- » Consistent approach to risk management across operations
- » Improved stakeholder confidence (customers, employees, regulators)
- » Platform for sustainable growth and operational excellence

GLOBAL FORWARDING

**PROUDLY REPRESENTING SOME OF THE
WORLD'S LARGEST INDEPENDENT FREIGHT
NETWORKS.**

- » Sporting Goods and Equipment
- » Furniture and Homewares
- » Manufactured Goods and Accessories
- » Fast Moving Consumer Goods (FMCG).

GLOBAL NETWORK

One Global Logistics is represented by some of the worlds leading independent and progressive transport and logistics enterprises. We offer a global solution in over 200 cities around the world.

SUPPLY CHAIN SOLUTIONS

FLEXIBILITY FOR DYNAMIC BUSINESSES

With constant market changes and a volatile logistics supply chain climate, OGL offers support based on flexible solutions that include:

- » Optimise Inventory & Handling Costs
- » Respond to changes in Product Demand
- » Customised supply chain solutions to meet specific company & customer needs & goals.

ACCURACY AND VISIBILITY

At One Global, we understand the importance of delivering on promises. A proactive approach to supply chain synchronisation will help your business gain that ever-important competitive edge.

Our visibility and reporting functions allow you access to the latest information on your supply chain performance, either through our extensive EDI (electronic data interchange) program or ad-hoc search and reporting capabilities through MyOne.

INTEGRATION

OGL's Global network and local knowledge allow you to explore opportunities in new markets with complete integrated solutions, examples of which are as follows:

- » Warehousing & distribution services
- » Purchase order & Quality management
- » Supplier communication & relationships

A TEAM OF SPECIALISTS DEDICATED TO SUPPLY CHAIN EXCELLENCE

OGL manages the complex global flows of goods, information, and financials for all our customers. Our core values include:

- » Customer service & exceeding each customer's expectations
- » Continuous improvement & optimisation
- » KPI's that are measured regularly across all countries & activities
- » Change Management & implementation at all levels - Operational, Tactical & Strategic
- » High level & innovative standard operating procedures (SOP)

CUSTOMS & DAWR (AQIS) PROCESSING

OGL offers a range of services tailored to all requirements:

OPERATIONAL CUSTOMS CLEARANCE:

- » Ensure due diligence and compliance for all your import/export declarations
- » Facilitating your special services for bonded warehousing, and inward/outward processing relief (IPR/OPR)
- » Free Trade Zone clearance and advice.

TRADE MANAGEMENT:

- » Reduce risks and manage costs on cross-border transactions
- » Gain insight into Free Trade Agreements, international tariff data, and duty drawback regimes
- » Unlock hidden duty savings potential with our customs health checks and scorecards.

DIGITALISATION:

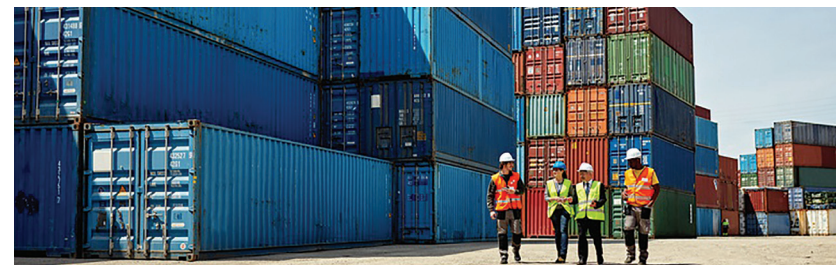

- » Our EDI Integration systems between our International Freight and Customs Departments - real time EDI communications with customs and Quarantine authorities - allow for speedy clearance of your cargo. We are continuously updating our system with the latest customs regulatory procedures
- » Gain full visibility of customs flows (milestones, KPIs and reports).

TRADE CONSULTANCY:

- » Review and appeals to customs decisions
- » Tariff concession application service
- » Customs duty refund services
- » Understand and know which tariff concessions are available to your business
- » Customs duty drawback service.

TRADEX SCHEME:

- » Customs compliance audit – giving traders peace of mind that your business is compliant with Customs regulations and have a high level of accuracy with your tariff classifications
- » Train your supply chain and shipping staff on subjects related to Customs processes, documentation, duty, concessions, Quarantine and free trade agreements.

Infrastructure – Civil & Capital Equipment

PROJECT EXECUTION MODEL

OGL provides end to end project support, from concept to completion, which includes the following value added services:

CONSTRUCTION PROJECTS

Over 100+ Successful Deliveries

One Global Logistics has a long term track record managing over 100+ Import Construction Projects throughout Australia. Our Key Services include:

PROJECT PLANNING & REQUIREMENTS ASSESSMENT

- » Early involvement in project lifecycle to understand timelines and critical paths
- » Material requirements forecasting aligned with construction phases
- » Site constraints and access limitations assessment.

TRANSPORTATION STRATEGY

- » Multimodal solutions (ocean, air, land) based on priority and size
- » Specialized equipment for oversized/heavy components
- » Route optimization including traffic management planning
- » Project Site Receipts, Inspections and proof of delivery.

IMPORT DOCUMENTATION & COMPLIANCE

- » Customs clearance expertise for international shipments
- » Permits for oversized cargo and specialized equipment
- » Project-specific insurance requirements.

SPECIALISED MATERIALS HANDLING & MANPOWER METHODOLOGY

- » Just-in-time delivery coordination with construction schedules
- » Specialized unloading and positioning equipment
- » Temporary storage solutions and site logistics planning.

VISIBILITY & COMMUNICATION

- » Real-time shipment tracking and milestone updates
- » Centralized documentation management
- » Stakeholder communication protocols.

SOLAR & BATTERY (BESS) PROJECTS

Over 50+ Successful Deliveries

One Global Logistics is one of Australia's leading Freight Forwarders & Landside Logistics Providers managing shipping & delivery logistics for Solar & BESS projects:

SPECIALIZED PROJECT PLANNING

- » Early coordination with OEM's, EPC contractors & project owners
- » Phased delivery schedules aligned with installation timelines
- » Site assessment for accessibility & equipment requirements
- » Route Survey & TMP/TMR assessments with local authorities.

EQUIPMENT-SPECIFIC TRANSPORTATION

- » Specialized handling for fragile solar panels & sensitive battery components
- » Temperature-controlled shipping for batteries & electronic components
- » Heavy lift solutions for transformers & large battery containers.

REGULATORY COMPLIANCE

- » Hazardous materials handling certifications for battery components
- » Environmental compliance documentation
- » Import regulations for renewable technology components.

MATERIALS HANDLING METHODOLOGY

- » Just-in-sequence delivery to match installation workflow
- » Direct-to-installation-point positioning
- » Specialized equipment for solar panel racking and module handling
- » Battery container positioning with precise placement requirements
- » Shock Stickers for sensitive materials in transit

QUALITY CONTROL AND RISK MANAGEMENT

- » Moisture and impact monitoring during transit
- » Contingency planning for weather delays at remote installation sites
- » Pre-delivery inspection protocols for high-value components.

VALUE-ADDED SERVICES AVAILABLE

- » On-site inventory management and tracking
- » A dedicated customer service manager & onsite project manager
- » Packaging waste removal and recycling
- » Reverse logistics for damaged components.

INDUSTRIAL & POWER PROJECTS

One Global Logistics offers Strategic & Experienced resources for Industrial & Power Generation projects around Australia.

SPECIALISED PROJECT ASSESSMENT

- » Detailed route surveys for overweight and oversized equipment
- » Engineering studies for bridge and road capacity
- » Site access evaluation and potential modifications required
- » Long-lead time permitting identification

EQUIPMENT-SPECIFIC HEAVY HAULAGE TRANSPORTATION SOLUTIONS

- » Heavy lift vessels for main transformers (80 + tons)
- » Self-propelled modular transporters (SPMTs) for final positioning
- » Specialized jacking and skidding systems for installation
- » Australian HVNR permits, pilots and police escorts.

REGULATORY & COMPLIANCE MANAGEMENT

- » Multi-States permits for oversized road transport
- » Escort and pilot car coordination
- » Traffic management plans for urban areas
- » Temporary infrastructure modifications.

TECHNICAL HANDLING METHODOLOGY

- » Transformer oil handling and vacuum procedures
- » SF6 gas management for gas-insulated substations
- » Specialized rigging for sensitive high-voltage equipment
- » Precision placement and alignment services

RISK MANAGEMENT AND PROTECTION

- » Shock and vibration monitoring during transit
- » Custom-designed bracing and support systems
- » Anti-corrosion and moisture control measures
- » Specialized insurance with high-value coverage.

PROJECT COORDINATION SERVICES

- » Integration with power plant commissioning schedules
- » Coordination with civil works contractors
- » Multi-stakeholder communication protocols
- » Just-in-time delivery to minimize on-site storage

TECHNOLOGY DIGITAL SHIPPING TOOLS

One Connect: A Benchmark in Supply Chain Efficiency

OGL's One Connect is an advanced digital platform designed to revolutionise freight management through seamless integration, real-time communication, and comprehensive visibility. Built to address the growing complexities of global logistics, it empowers businesses to manage and optimise their supply chains with unmatched agility and precision.

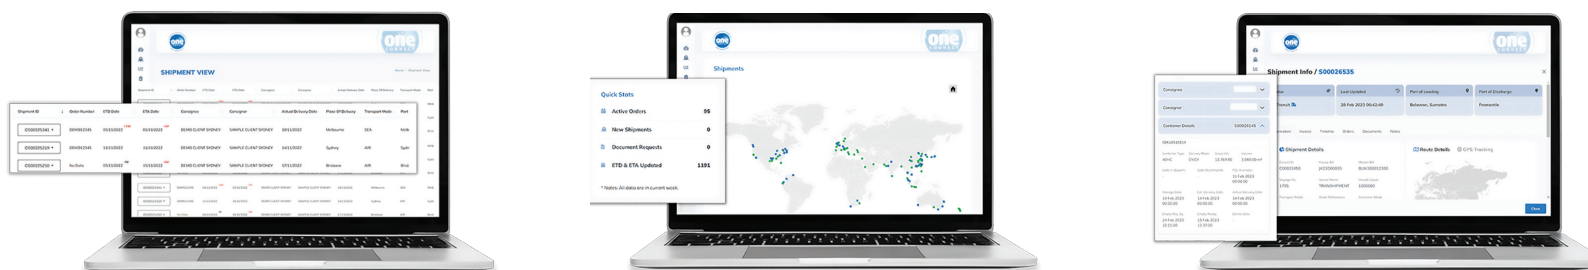

Key benefits include enhanced real-time communication through a newly updated chat function, enabling instant collaboration across all stakeholders. This feature significantly reduces delays, accelerates issue resolution, and ensures transparent coordination between suppliers, partners, and customers.

One Connect's intuitive dashboard offers improved shipment visibility and actionable insights, providing users with complete control over their logistics operations. The platform's flexibility is further enhanced with customisation

options and mobile compatibility, supporting efficient management from any location.

With robust usage metrics—over 86,000 logins and 123 daily active users—One Connect has proven its value in streamlining shipping processes, document management, and communication workflows. Upcoming features like One Connect Lite, Calendar View, CO2 emissions reporting, and expanded order details reflect OGL's ongoing commitment to practical innovation and environmental responsibility.

In a \$130 billion logistics sector where timing, transparency, and adaptability define success, One Connect equips businesses with the tools to stay competitive and resilient. By driving efficiency, reducing friction, and enhancing supply chain visibility, OGL continues to set the standard for digital logistics solutions in a global marketplace.
